

Group-3 | CSE299.4

Safat Uddin (2311966642)

Farhan Karim (2311790642)

Faizur Rahman Zunayed (2312137642)

Backend:

Done By Safat:

- Implemented *"update-project"* to edit project details and add members within projects
- Implemented *"upload-attachment"*, *"add-link"* & *"delete-attachments"* to add attachments, links and delete attachments in task details
- Implemented *"update-workspace"* to edit workspace details, *"transfer-ownership"* to transfer ownership of workspace
- Implemented *"delete-workspace"* to delete workspace
- Implemented *"invite-user-to-workspace"* and *"accept-invite"* to add members to workspace
- Implemented *"get-user-profile"*, *"update-user-profile"* & *"change-password"* in user-profile
- Made changes to *"schema"* to invite members, add attachments and other functionalities for this week's update.

Frontend:

Done By Zunayed:

- Implemented *"archived"* page to see the archived tasks
- Implemented *"settings"* page to change user profile information and passwords
- Re-designed *subtask card* in task details for improved UX/UI.

Done By Farhan:

- Implemented *"members"* page to display all members of a workspace, with both list and board view options.
- Developed the *"profile"* page for viewing and editing user details.
- Implemented *"edit workspace"* interface to edit workspace details.
- Implemented *"edit project"* interface to edit project details.
- Added *"add attachments"* functionality for attaching files to tasks in the task details view.

Done By Safat:

- Created an *"invite members"* interface to invite members into workspace.
- Implemented *React Query hooks* to handle fetching and updating data; relevant queries automatically refresh after mutations.
